Discrimination against LGBTQIA+ people outside the workplace is as unacceptable as discrimination in the workplace.

Being union is about sticking up for each other and using our collective power to build genuinely queer friendly workplaces.

As union members, our actions are never for the advancement of the individual alone. That's why we act together to benefit everyone.

Join your union to be part of the Together Pride Network and work with other LGBTQIA+ union members on workplace issues such as gender affirmation leave or making our workplace more queer friendly.
